Dispenser

### **Tools Required:**

No tools required to assemble dispenser

BB-034 - Installation/Characteristics & Care

Information subject to change without notice. Dimensions are approximate. (Not to scale)

## **Material Characteristics**

## **Designed for Long-Term Use**

Our steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion.

Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature.

Dispensers and stands made of powder-coated steel are both attractive and functional, providing years of service.

## **Care and Cleaning**

For best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a nonabrasive cloth. Standard hospital cleaning supplies can be used.

Dry with a soft cloth. Do not use any solvent-based materials. abrasives (e.g. Scotch-brite, steel wool), or apply excessive force during cleaning.
