- 20.0 lbs (9.1 kg) - approximated

Product Specifications (overall external dimensions):

- 18.00"W x 36.06"H x 18.00"D (45.7 cm x 91.6 cm x 45.7 cm)
- 16.0 lbs (7.3 kg) - approximated

Mounting Specifications:

Installation

Always mount dispensers securely *prior* to loading with product.

- To secure base to column, turn column upside down (with top plate down).
- Place base inverted, as shown, on column.

1

- Use Phillips screwdriver to secure base to column with (4x) screws (10-32 x 5/16").
- Turn stand right side up, so the base is on the floor.

2

Parts included:

- Column
- Base
- Hardware
- (8x) Screws: (4x) for stand, (4x) included to attach companion product (Phillips type 10-32 x 5/16")

Tools Required:

- Phillips screwdriver

Care and Construction

Powder-Coated Steel

Material Characteristics

Designed for Long-Term Use

Our steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion.

Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature.

Dispensers and stands made of powder-coated steel are both attractive and functional, providing years of service.

Care and Cleaning

For best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a non-abrasive cloth. Standard hospital cleaning supplies can be used. Dry with a soft cloth. Do not use any solvent-based materials, abrasives (e.g. Scotch-brite, steel wool), or apply excessive force during cleaning.
