Installation Instructions/Characteristics & Care

### Installation

Always mount dispensers securely prior to loading with product.

### Parts included:

· Semi-recessed dispenser

### **Tools Required:**

No tools required to assemble dispenser

### Care and Construction Powder-Coated Steel

### **Material Characteristics**

### **Designed for Long-Term Use**

Our steel dispensers and stands are coated with polyester powders which makes them highly resistant to corrosion.

Powder-coated steel is ideal for dispensers used in a healthcare or an industrial setting because it is impact resistant and is not effected by extremes in temperature.

Dispensers and stands made of powder-coated steel are both attractive and functional, providing vears of service.

### **Care and Cleaning**

For best results, clean by washing the surface with a diluted solution of a mild, non-abrasive detergent in cold or warm water and a non-abrasive cloth. Standard hospital cleaning supplies can be used. Dry with a soft cloth. Do not use any solvent-based materials. abrasives (e.g. Scotch-brite, steel wool), or apply excessive force during cleaning.
