# Medication Management Compliance is Key

A proper lock box is a great way to adhere to Joint Commission regulations that require hospitals to safely store medication. Every Medical Lock Box available at MarketLab—including customizable options—is designed to assist in maintain medication integrity, promote the availability of medications

when needed, minimize the risk of medication diversion, and reduce potential dispensing errors. These design characteristics are all key rationale of Joint Commission (**Medication Management 03.03.01**) regulations and are used to ensure the utmost levels of compliance possible.

## Personalize

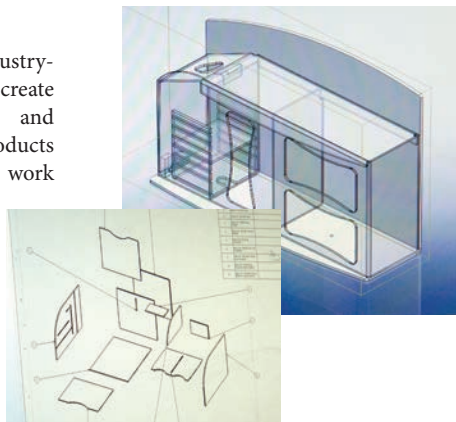

## Have A Specific Need In A Medication Lock Box, We Can Make It!

To us, the only thing better than a unique and hard-to-find product is one that meets all of your needs. That's why we offer a variety of products that can be tailored to your exact specifications. When products look, fit, and function to your design, they become something else entirely. Get more than a product. Get what you need with personalized solutions available from MarketLab.

**Don't See What You Need, Call Us Today**

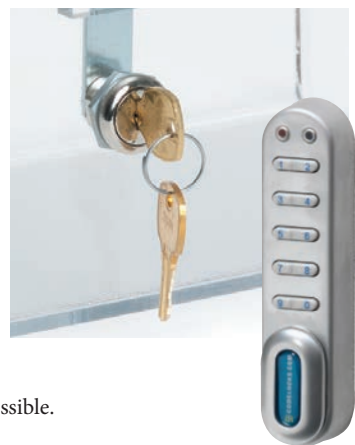

### Design

Our designers use industry-standard software to create the most accurate and aesthetically pleasing products possible. Let our staff work closely with you to ensure every aspect of your personalized solution meets your needs and vision.

### Lock Options

Use a standard key to keep security in the hands of designated staff members. Combination locks prevent security breaches caused by missing keys and offer thousands of three-digit code combinations you can set yourself. E-locks offer the most advanced, keyless entry available today. Whatever locking mechanism you choose, MarketLab offers these three keying options to keep your personalized lock box secure at all times.

### Key All Your Lock Boxes Alike

Choosing standard key security for your lock boxes? Ask about how any order can be keyed alike, making it easy to keep all your boxes secure with as few key sets as possible.

### Material

It's not just fabricated plastic. We create personalized solutions from a variety of mixed media and from a variety of well-known brand names.

#### Brands & materials we offer

- Stainless and powder-coated steel
- Tackable and dry-erase surfaces
