

Sharn Anesthesia Has Been Named a Salter Labs Preferred Partner

Caledonia, Mich., Dec. 5, 2016 — Sharn Anesthesia Inc. announced that they are a preferred anesthesia sales and distribution partner for Salter Labs, as well as the 2015 Salter Specialty Dealer of the Year in recognition of outstanding sales performance during the year.

Salter Labs is a leading manufacturer of devices for respiratory and anesthesia care, including the market gold standard ECO₂ sampling cannulas. They are also the master distributor of the Parker Flex-Tip® Endotracheal Tube, which is a leading patient safety design innovation.

This exciting honor is a culmination of more than 17 years of proven results in providing an expedited, streamlined delivery path for Salter Labs and recognition that Sharn is a leading anesthesia-related preferred partner of choice.

“Sharn is a recognized resource for anesthesia specialty products. We are pleased to be selected as a preferred partner of Salter Labs because our customers count on us for products that help them provide the best patient care along with the best value,” said Julie Anderson, General Manager of Sharn. “Everyone knows that Salter products set the gold standard of quality so this aligns perfectly with our mission.”

About Salter Labs

Salter Labs is a leading global manufacturer of single-use medical devices for respiratory and anesthesia care use in hospitals and homes. The company is known for delivering comfort and performance for patients and clinicians. Current leading products include 1600-series oxygen cannulas for home oxygen delivery, capnography cannulas for monitoring during sedation, and NebuTech high-density nebulizers for delivering aerosol medication. The company is building a new future and expanding its range of products focusing on superior patient care, reliable outcomes, and innovative new products for respiratory and anesthesia. Today, nearly 1,000 employees dedicate themselves to helping patients worldwide breathe freely.

About Sharn Anesthesia Inc.

Sharn Anesthesia Inc. is a name internationally recognized as a market leader and trusted supplier of anesthesia products.

Established in 1983 to market temperature trend indicators, Sharn rapidly became the market leader and continues today to lead with unique products such as Crystalline® Moving Line, Crystalline® ST, and DermaTherm™ temperature indicators. Over 75 million patients have been monitored with Sharn Temperature Trend Indicators. Today Sharn offers much more than Temperature Indicators with a wide range of products for both the Anesthesia and Central Sterile departments.
