

FEATURE STORY

WHY THE HEALTHCARE INDUSTRY IS OBSESSED WITH RECESSED

The healthcare industry has many regulations that must be adhered to and planned for in the early stages of a project. But thankfully, even with healthcare compliance and patient safety rules, architects and planners don't have to settle with sub-par aesthetics to comply. Today, solutions are available that offer the best of both worlds, down to the often overlooked details of PPE storage and compliance.

PPE doesn't need to stand out or occupy floor space to be accessible. In fact, Semi-Recessed solutions from BOWMAN may even improve HCAHPS scores. The sleek, aesthetically pleasing design solutions keep necessities tidy and compliance within reach, appealing to patients as well as healthcare professionals. Not sure which to recommend? We've highlighted the best-selling BOWMAN Semi-Recessed line here for your reference.

Modern hospital designs require next level PPE solutions that comply with the ADA 4 inch depth guidelines. Shown above: Top-Selling BOWMAN Protection System RE101-0012

Inside the Top-Selling RE101-0012. Features available in all Semi-Recessed Solutions: one in-wall well, adjustable shelf, interchangeable door, universal sizing to fit most brands of PPE, made of Quartz Beige Powder-Coated Steel, keyless lock, and 15 year warranty.
