Thoughtful Products for the Healthcare Worker

When it comes to the health of our communities, small things matter. That's why for 30 years, Marketlab has made the details our job. By leveraging our deep expertise and listening to our customers, we've developed a product portfolio that strives to make your work just a little bit easier.

At Marketlab we value the practical day-to-day needs that often get overlooked—and strive to create the right solutions for specific needs. From the day of our founding, we've been obsessed with fixing your problems. Our first solution, the Tube Jockey, got us hooked and we haven't stopped working for you since.

We are not an "everything to everyone" organization. Instead, we focus our efforts on the unsung heroes of healthcare wherever they work.

We're here for the technicians, the floor nurses, the laboratorians, and the individuals who help make healthcare run. We care about the ergonomics of the cart you push every day, the durability of the bag that carries your supplies into work, and the design of the eye protection that helps you care for your patients. To us, these are the types of things that matter.

Through an unwavering commitment to customer service, a transparent communication style, and the flexibility of a family-owned company, we will always keep it simple, stick to our word, and have your back.

New Additions to the Family
Mobile Supply Cabinets

Designed for Easier Restocking, Inventorying, and Cleaning

INTUITIVE DESIGN

The interior walls are lined with Panelogic™ panels that hold the shelves and bins. They feature runners and stoppers that allow full extension of any shelf or bin accessory without the worry of the accessory falling out.

Accessories are easily moved so you can rearrange them to meet your changing supply needs. They're also fully removable for easy restocking and cleaning.

CONSTRUCTED FOR HEALTHCARE

The exterior steel walls provide superior stability during transport, durability to extend the life of the cabinet, and are easily cleaned with standard hospital disinfectants.

The Panelogic interior panels are also made of steel to prolong their life and are seamless so germs have no place to hide.

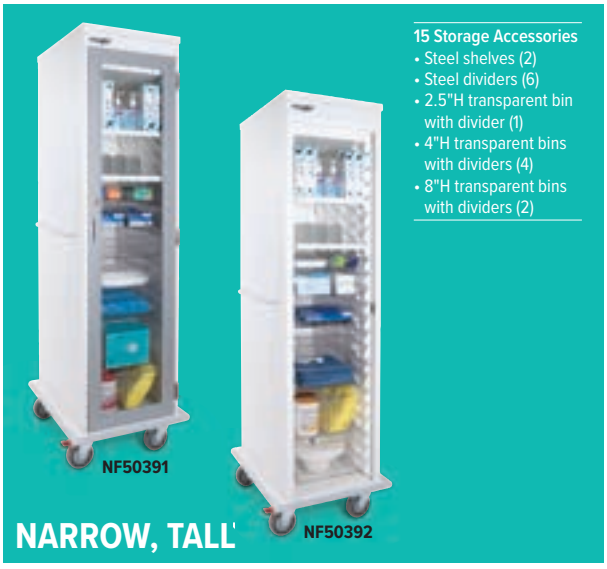

DOOR CHOICES

Tambour doors roll up into the cabinet, making them the perfect option if you don't have room for hinged, swing-open doors. An open tambour door also doesn't impede traffic flow like a hinged door can.

Hinged glass doors allow you to see contents without having to open the cabinet. The glass is tempered for strength and safety and sits in a rust-free aluminum frame.

WHAT YOU SEE IS WHAT YOU GET

No guessing which accessories you should buy. We include everything you need to start using your cabinet as soon as it arrives.

ELIMINATE MIXING BLEACH BY HAND

The Fresh-Mix Bleach Bottle automatically mixes a precise 1:10 bleach solution every time you squeeze the trigger! It works by keeping the water and the bleach in separate cartridges until the time of use. Each bleach cartridge contains 5.25% sodium hypochlorite and includes a precalibrated valve that ensures a 5,000ppm dilution of bleach and water when squeezed. Available only in the continental U.S.

DUST-FREE, WALL HANGING BINS

Wire mesh bins don't collect dust like other bins and are strong enough for hanging your bulkiest storeroom inventory. Nickel-chrome finish and a 0.375" x 0.375" grid pattern allows complete visibility of contents and allows dust to pass through freely, creating dust- and dirt-free storage environments.

- Superior, strong construction allows for high-capacity wall hanging
- Mesh pattern promotes clean storage with dust-free design
- Stack one on top another for use on shelves or during transport between rooms
