## GynoCart® Exam Cart

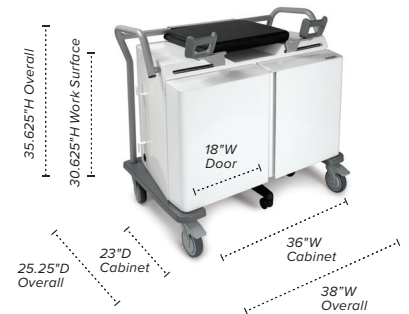

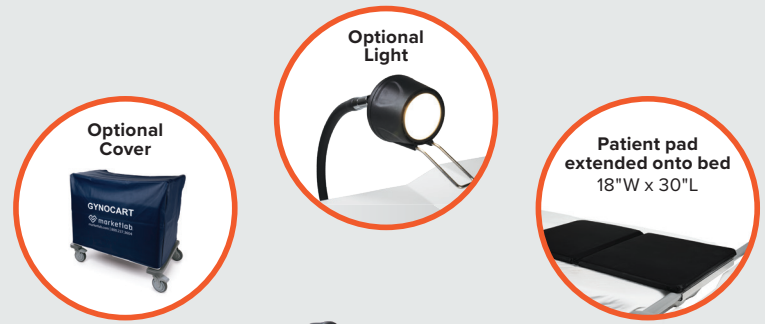

### Turn Any Bed Into an Exam Table

Support ER and ICU physicians with a safer, more convenient, and more affordable solution for gynecological, urological, or protoscopic exams. The GynoCart quickly converts any standard hospital bed or stretcher into an exam table with stirrups, a stool, and stocked supplies. Eliminate the need for risky, patient transfers and decrease wait times by bringing this fully mobile solution from room to room.

- Experience significant cost savings compared to buying a full gynecological bed
- Stirrups are adjustable and coated for durability
- Patient pad extends to increase comfort and help keep cart in place
- Extendable storage shelves are easily accessible (supplies not included)
- Height-adjustable exam stool with casters is stored inside cart
- Moves effortlessly on four 5" casters, two lockable
- Optional light illuminates the exam area
- Extended power cord includes metal cord wrap to reduce tripping hazards
- Doors with magnetic closures can accommodate tamper-resistant locks
