THE MARKETLAB STORY

At Marketlab, we’ve been pioneering healthcare solutions for over 30 years. From our very first invention, the Tube Jockey, to a comprehensive range of healthcare solutions under our expanding brand family, we focus on making the day-to-day lives of healthcare professionals easier and more fulfilling.

Today, Marketlab is a trusted partner for most U.S. health systems, offering products that cater to the real-world demands of healthcare environments.

MARKETLAB IS MORE THAN JUST A SUPPLIER, WE ARE A DEDICATED PARTNER IN HEALTHCARE EXCELLENCE.

HOW WE’VE GROWN

Since 1994, Marketlab has grown from a pioneering startup to a leader in specialized healthcare products. Our journey has been marked by strategic growth and thoughtful acquisitions. With nine brands in the Marketlab portfolio, we are able to provide comprehensive solutions across all aspects of healthcare delivery, from anesthesia to medical bags and everything in between.

Utilizing our broad product portfolio, focusing on low-to-mid volume products, healthcare facilities can reduce the time and effort spent on procurement, and focus on what truly matters — patient care.

What You'll Find in This Guide

Everything You Need. Nothing You Don't.

This brochure features a focused selection of products used daily across emergency departments nationwide, thoughtfully designed for:

- Space-constrained environments
- Safe and dignified patient care
- Infection prevention
- Efficient organization and access

Each section highlights how these solutions contribute to smoother workflows and safer care so your team can focus on what matters most: the patient in front of them.

Built for the Pace of Emergency Care

Dependable Solutions for the Moments That Matter Most

Designed with the ED in Mind

Every second counts in the ED. Our products help clinicians move faster, stay organized, and deliver better care without compromise.

MEDICAL CARTS

Our durable medical procedure carts ensure your essential supplies are well-stocked, secure, and neatly organized. Choose from our lightweight aluminum carts, providing excellent maneuverability, or opt for our robust stainless steel carts, renowned for their long-lasting durability. Our carts also offer a variety of lock options, allowing you to tailor the level of security to your specific requirements.

MEDICAL CARTS GYNOCART & ACCESSORIES

Insight® GynoCart™ with Exam Light

ML138017

Bring the Exam to the Patient

Every patient deserves a dignified exam — even in the fast-paced emergency department. The Insight GynoCart eliminates makeshift setups by instantly converting any stretcher into a functional gynecologic, urologic, or proctoscopic exam table. Just wheel it into place at the end of the stretcher and you'll be able to provide a safer, more comfortable experience for your patients — no risky transfers required. The optional exam light enhances visibility, ensuring medical professionals can perform thorough bedside exams with the ease of a full exam table.

MOBILE WORKSTATIONS

Bring technology to the point of care with mobile workstations that enhance productivity and patient interaction. Ergonomic designs, integrated storage, and power management options allow clinicians to chart, research, and communicate efficiently — all while staying mobile and engaged with patients.

MOBILE WORKSTATIONS INSIGHT TELEHEALTH CARTS & ACCESSORIES

Insight® Mobile Laptop Cart with Storage

ML108203

With a generous work surface and two drawers to hold a shift's worth of supplies, the Insight Mobile Laptop Cart with Storage lets you roll up to your next patient quickly, quietly, and ready to start the exam.

Insight® Standard Laptop Cart

ML108202

The Insight Standard Laptop Cart offers an unencumbered, secure, mobile workstation designed for the tech needs of today's healthcare professionals. The smooth work surface provides ample space for a laptop plus a few supplies.

Power Pack

Arrives pre-installed when ordered at same time as cart. Can be added in the field with some assembly required.

Available Options

ML108206 For Laptop Carts
ML108208 For Telehealth Cart

Insight® All-In-One Telehealth Cart

ML108204

With three-point adjustability, you'll get the precise camera angle you want at the height you need from the independent tilt and swivel monitor adjustments, and the work surface height adjustment. Designed for all-in-one computer/monitor units.

Includes disinfectant holder and double glove dispenser. Mounting hardware included.

Available Options

ML108205 For Laptop Carts
ML108207 For Telehealth Cart

MOBILE SUPPLY CARTS

Preconfigured Options for Fast & Easy Ordering

The interior walls are lined with Panellogic™ panels that hold the shelves and bins. They feature runners and stoppers that allow full extension of any shelf or bin accessory without the worry of the accessory falling out.

Accessories are easily moved so you can rearrange them to meet your changing supply needs. They're also fully removable for easy restocking and cleaning.

ISO 60-40 Panellogic Interior Cell Panel System increases Storage Capacity by up to 30% compared to traditional shelving.

The exterior steel walls provide superior stability during transport, durability to extend the life of the carts and are easily cleaned with standard hospital disinfectants.

The Panellogic interior panels are also made of steel to prolong their life and are seamless so germs have no place to hide.

ONLINE CART CONFIGURATOR

USE OUR

CART CONFIGURATOR

TO BUILD YOUR IDEAL CART

marketlab.com/ed-configurable-carts

1. SELECT YOUR CART SIZE

Insight Carts are available in a range of sizes that can be tailored to any application. Carts are available in 1, 2, or 3 columns that can be configured according to the Panelogic™ cell capacity.

2. SELECT YOUR ACCESSORIES

Configure your cart with a variety of accessories, including shelves and bins in multiple sizes, as well as a locking drawer or a catheter box and rack.

3. SELECT YOUR DOOR, LOCK, AND TOP OPTIONS

You can choose a tambour or tempered glass door, a keyed or electric lock, and a standard or sloped cart top.

For inquiries and no-obligation quotes, please contact your Marketlab Account Manager. If you need assistance being connected with your Account Manager, call 800.237.3604.

As part of our goal to make delivery and set-up a seamless process, all of our carts are shipped on pallets with integral ramp for easy deployment on-site.

STORAGE CARTS

Staying organized isn't just about convenience — it's about efficiency, security, and seamless patient care. Our storage carts are built to adapt, offering smart solutions that maximize space, improve access, and keep essential supplies within reach.

From spacious carts with built-in work surfaces to compact undercounter solutions that fit into tight spaces, each cart is thoughtfully designed for the way healthcare professionals work. Whether you need high-capacity organization for frequently used supplies, secure locking options for sensitive materials, or lightweight mobility for quick restocking, we offer a storage solution that keeps up with your workflow.

STORAGE CARTS

INSIGHT SUPPLY-STYLE CARTS

Insight® Slim Storage Cart
ML60874

A perfect fit for narrow spaces and busy hallways. Its unique profile and configuration allow for smooth navigation while still offering ample storage options to keep essential supplies organized and accessible. The combination of clear bins, removable trays, and additional drawers ensures that everything has its place, making restocking and retrieval quick and efficient. Built with secure storage in mind, it keeps contents protected while maintaining visibility for easy inventory checks.

Lockable Storage Cart
ML23062-WH

The Secure Supply Cart stands out for its balance of security, convenience, and durability. Unlike standard carts, its lockable roll-top door protects supplies without sacrificing accessibility. The narrow design fits into tight spaces, making it ideal for crowded medical settings. Lightweight yet tough.

SPECIALTY CARTS

Every healthcare task comes with its own set of challenges — our specialty carts are built to meet them. Designed for precision, efficiency, and adaptability, these carts provide the right balance of storage, accessibility, and ergonomic support to keep workflows smooth and organized.

SPECIALTY CARTS

INSIGHT MODULAR CARTS

Insight® Modular Cart Base with Accessory Rack

ML110472

Built for Communication. For departments that need more than just mobile storage, the Insight Modular Cart with Backboard enhances organization and efficiency with a built-in backboard that doubles as a dry-erase board, making it ideal for teams that rely on real-time notes, reminders, or instructions. The side rail system on the cart itself expands customization potential, accommodating a variety of accessories to enhance usability. This cart features lockable drawers, a transparent cubby, and a large worksurface, ensuring security and accessibility. With its lightweight yet durable aluminum frame and smooth-rolling casters, it's ideal for departments that require both modular storage and integrated communication tools to streamline workflows and improve efficiency.

Insight® Modular Cart ML110399

Built for versatility and efficiency, the Insight Modular Cart is designed to adapt seamlessly across different departments while maintaining a compact footprint. Purposely designed to make adding or changing accessories quick and easy, it allows facilities to configure the cart based on their specific needs. With three spacious drawers, a transparent-door cubby, and a large worksurface, it keeps essential tools organized and within reach.

SPECIALTY CARTS

IV START CART

Insight® IV Start Cart
ML104693

This mobile workstation is designed to conveniently store IV and epidural supplies, increase clinician comfort, and enhance safety. Two worksurfaces create easier accessibility for clinicians, whether standing or sitting on any side of the cart. Five drawers reduce the need for constant restocking while also keeping IV essentials close at hand. The lightweight frame is easy to maneuver on any surface and durable enough to stand up to demanding healthcare environments.

Three-point adjustable arm allows 360° motion for optimum placement of the second worksurface

SPECIALTY CARTS

POST PARTUM HEMORRHAGE CART

Post Partum Hemorrhage Titan Cart
ML102401

Quick, secure supply access during hemorrhage emergencies. Excellent for storing biohazard bags, cauterization tools, medications, scales, wound care, specimen containers, bed pads, and ice packs. Locking drawer is ideal for storing medications.

Storage accessories include:
Shallow bin (10.875"W x 16.5"L x 3.375"H)
Large bin (10.875"W x 15"L x 6"H)
XL bin (10.75"W x 16.5"L x 8"H)
Side-mounted glove box
Locking drawer (11.5"W x 17.25"L x 6.25"H)

PROBE & ENDOSCOPE STORAGE CARTS

Proper storage and transport are essential to maintaining the integrity of delicate probes and transducers. Our specialized carts and trays are designed to prevent cross-contamination, streamline access, and protect sensitive equipment during handling. Whether you need secure transport for ultrasound transducers, quick-access shelving for high-traffic areas, or dedicated compartments for organizing probes, these solutions enhance workflow efficiency while keeping essential imaging tools safe, accessible, and ready for use.

PROBE & ENDOSCOPE STORAGE CARTS

Mobile Ultrasound Transducer Cabinet

ML104820

Effortlessly transport and protect your ultrasound transducers with a cabinet designed for convenience and security. Smooth mobility allows for quick access across multiple rooms, while ample storage keeps essential supplies within reach. The vented design helps maintain optimal conditions, and a transparent, lockable door provides both visibility and protection. With dedicated space for up to three probes, this cabinet enhances organization, efficiency, and equipment longevity in any imaging environment.

Insight® Multipurpose Storage Cart

ML34399

Designed for fast-paced, space-limited environments, this cart has an open-shelf design for quick access to supplies without opening drawers. While it comes with four molded organizers (3-, 4-, 5-, and 12-compartment), it can hold up to five, which can be swapped out for Ultrasound Transport Trays (ML41235). Ideal for transporting clean and dirty probes across the hospital, this cart helps meet compliance standards while keeping supplies organized and mobile.

MOBILE PPE INFECTION PREVENTION STATIONS

BOWMAN®
■■■■■

Infection control starts with accessibility. Our mobile PPE stations ensure that masks, gloves, and gowns are always within reach. Whether stationed in high-traffic areas or moved between patient rooms, these carts help healthcare workers maintain safety protocols effortlessly, promoting a cleaner, safer environment for all.

MOBILE PPE INFECTION PREVENTION STATIONS PREMIUM ISOLATION CART

Premium Infection Prevention PPE Isolation Cart

CT300-0000

Designed to be the most full-featured mobile storage solution for PPE and isolation essentials, the Bowman Premium Infection Prevention PPE Isolation Cart encourages compliance with proper protection and hygiene protocols. Loaded with designated spaces for PPE dispensers such as gloves, gowns, masks, and other equipment, this cart includes customizable storage that adapts to changing needs. It's an ideal solution for high-traffic environments requiring maximum accessibility and hygiene control.

MOBILE PPE INFECTION PREVENTION STATIONS
STANDARD ISOLATION CART & ACCESSORIES

**Standard Infection Prevention
PPE Isolation Cart**

CT200-0000

Offer quick access to PPE in isolation areas with customizable storage spaces that adapt to your needs. This isolation cart features organized compartments for a variety of PPE, making it perfect for moderately equipped isolation or clinical areas that need flexible storage options. Effortlessly and quietly maneuver the cart throughout your space on any surface. The smooth, easy-to-clean surfaces support infection control, which is especially important in isolation areas.

MOBILE PPE INFECTION PREVENTION STATIONS
MINI ISOLATION CART & STEEL ISOLATION STATION

**Mini Infection Prevention PPE
Isolation Cart**

CT100-0000

Designed for quick, convenient access to PPE anywhere you need it, this highly maneuverable cart includes ample space for all your essentials. Organized compartments offer quick PPE access, while smooth, easy-to-clean surfaces support infection control. A practical, efficient solution that brings PPE closer to point-of-care areas without taking up much space, this isolation cart is a cost-effective solution that works hard wherever it's needed.

Document Holder

PA001-0000

Keeps important documents easily accessible and securely in place.

Bin Holder

PA002-0000

Provides a designated space for bins, optimizing storage and accessibility.

Folding Workspace

PA010-0000

Expands the cart's surface area for additional workspace when needed, then folds away to save space.

**Aluminum and Coated Steel Mobile
Isolation Station**

CT030-0000

Stay prepared with an isolation station designed for fast access and seamless mobility. With ample storage for essential PPE, it keeps supplies organized and within reach, helping reduce downtime and improving workflow. Durable construction ensures long-term reliability, while smart design features help staff maintain compliance with ease. Whether stationed in one place or rolled where needed, this unit supports infection control without slowing you down.

DISPENSERS

Keep commonly used items like PPE, supplies, and other daily essentials neatly organized and always available with durable dispensers. These solutions help reduce contamination risk and ensure compliance for a variety of spaces, while keeping the inventory clearly visible. Designed for efficiency, durability, and safety, our dispensers help streamline patient care.

FURNITURE

STOOLS & FOOTRESTS

SitStar® Stool
ML9367-BK

The Sit-Star Stool offers a level of comfort atypical of a smaller seat design. The tractor-shaped seat is constructed of PVC-coated gel molded on a metal frame.

Lab Stool, Bench-Height
ML138830 QS

Adjustable seat height allows anyone to quickly change to fit their preferences and the locking seat tilt and full swivel increase the ergonomic comfort. The durable base sits atop rugged casters, enabling effortless movement throughout your space.

Lab Stool, Desk-Height
ML138828 QS

Adjustable seat height allows anyone to quickly change to fit their preferences and the locking seat tilt and full swivel increase the ergonomic comfort. The durable base sits atop rugged casters, enabling effortless movement throughout your space.

Extra Cushioned Stool with Chrome Base
ML5506

This durable stool features a thick padded seat with a quick and easy seat-height adjustment to deliver all-day comfort. The chrome-plated base swivels effortlessly and scoots around on five smooth-action casters for total freedom of movement. Antimicrobial vinyl inhibits bacterial growth and keeps the stool performing at a high level every day.

Sit-Stand Lab Stool
ML138827 QS

Choose your preferred working posture by switching from a standard seated-height stool to a standing-height posture with the Sit-Stand Stool. Bring greater comfort to lab spaces with additional ergonomic adjustments such as a locking seat tilt and full swivel. The durable base sits atop rugged casters, enabling effortless movement throughout your space.

Large Footrest
ML9188

Ergonomic footrests promote comfort from head-to-toe. These free-standing, adjustable footrests provide foot support when chairs cannot, relieving stress on the underside of your thighs.

Small Footrest
ML9189

This footrest with 10 sloped non-ski platform delivers maximum comfort and relieves stress on the underside of the thighs. It adjusts from 3" to 11" from the floor.

Extra-Cushioned Lab Stool with Chrome Base, With Back and Pneumatic Height Adjustment
ML138822 QS

This lab stool boasts ergonomic features like adjustable seat height and a locking back tilt for personalized support. The sturdy black, nylon-reinforced fiberglass base, along with smooth-rolling, self-braking casters, works great on hard floors. Plus, the antibacterial/antifungal vinyl makes it a smart, easy-to-clean choice.

Four-Shelf Wire Shelving Carts
ML2212

Wire shelving on wheels provides versatility to any healthcare facility. They allow quick reorganization of supply areas and stockrooms. The large wheels ensure smooth rolling and two have locks to keep the unit in place when it reaches its final destination.

Available Options

- ML2209 18"W x 36"L x 69"H
- ML2210 18"W x 48"L x 69"H

ivNext ivNext IV Management System
ML139135

Simplify IV warming by providing clinicians with a simple way to monitor and precisely warm bags. This IV inventory management system automatically warms fluids to the recommended temperatures for IV fluids. Bags are stored in a shelf system that allows heat to rise evenly and keeps inventory visible and organized.

Countertop Multipurpose Warming Cabinets
ML139131

Keep warm blankets or fluids available for emergency rooms, operating rooms, labor and delivery units, and other areas with this convenient, reliable, and affordable multipurpose warmer. The three-mode temperature control. Capacity: 14–18 blankets; 24 1L bottles or 20 1L bags.

Available Options
ML139131 EC550BL, 18"D
ML139132 EC550BL, 24"D

Blankets and Fluids Storage Cabinet
ML139120

By stocking blankets and fluids in this convenient storage cabinet, you'll always have easy access to blankets and fluids that need to be warmed for emergency rooms, operating rooms, and labor and delivery units. The durable, heavy-duty stainless steel safely stores your blankets and fluids next to your warming cabinet, making them easy to replenish as needed.

Mobile Dual-Chamber Combination Warmer Cabinet
ML139126

Move warm blankets and fluids wherever they are most needed. Separate controls ensure that blankets and fluids are safely and accurately heated to meet the recommended temperatures by AORN.

Fluid Warmer Cabinets
ML139128

The durable, rugged stainless steel design is engineered and tested for years of hard work and reliable service. 12 1L bottles or 16 1L bags capacity.

Available Options
ML139127 EC250L
ML139128 EC350L
ML139130 EC400L

Fluid Warmer Cabinets with Soothing Blue Light
ML139121

Keep fluids warm while helping calm and soothe patients with a blue interior light. 20 1L bottles or 28 1L bags capacity.

SAFETY DISINFECTION

Fresh-Mix Bleach Dilution System Starter Pack ML0109

The Fresh-Mix Bleach Bottle automatically mixes a precise 1:10 bleach solution every time you squeeze the trigger! It works by keeping the water and the bleach in separate cartridges until the time of use. Each bleach cartridge contains 5.25% sodium hypochlorite and includes a precalibrated valve that ensures a 5,000ppm dilution of bleach and water when squeezed. Available only in the continental U.S.

Available Options

ML0107 Bleach Sprayer
ML0108 Cartridge Refills
ML0109 Starter Pack (3 sprayers and 12 bleach cartridges)

Sani-Cloth® Germicidal Wipes

Whatever your disinfecting need may be, the Sani-Cloth Germicidal Wipes family of products offers sanitizing wipes in a variety of formulas. Each EPA-registered disinfectant wipe is presaturated with the correct amount of germicidal solution.

Available Options

ML15951 Bleach 1:10 Dilution • 75/canister
ML3545 Plus 14.85% Alcohol • 160/canister
ML3547 Super 55% Alcohol • 160/canister

Benchtop Waste Container
ML17201

Don't waste your budget on specially printed biohazard waste cans for the benchtop. Use an acrylic waste container so that the labeling on the biohazard bag can be seen. And unlike wire holders, an acrylic container also adds another layer of protection.

Available Options

- ML17197 4.13"W x 8.56"H
- ML17200 6.88"W x 11.13"H
- ML17201 5.13"W x 7.38"H

1qt Sharps Container
ML8990

Fits into blood drawing totes and trays for the efficient disposal of blood, hypodermic and IV needles.

Economical Mobile Sharps Containers
ML4907

Economical, large-capacity sharps containers with two sizes of openings for safe disposal of different sizes of waste.

Available Options

- ML4907 8gal
- ML4908 16gal

Polyethylene Biohazard Bags
ML1924

Economical, strong, and meet all requirements for collection and processing of biohazardous waste.

Available Options

- ML1924 5-7 Gallons • 1.25mil
- ML1925 13-15 Gallons • 1.35mil
- ML1926 40-42 Gallons • 2mil
- ML3138 30-32 Gallons • 1.1mil

Touchless Biohazard Waste Step-On Bin
ML107394

Step-activated design is ideal for use with Autoclave Drawstring Waste Bags.

Polycarbonate Splash Guard with Cutaway
ML108331 and ML108339

Stay protected and maintain easy access to overhead storage with one of the longest-lasting splash guards available. The polycarbonate construction delivers the ultimate durability, while a variety of sizes and styles creates total flexibility. Stay in compliance with regulations, prepare for inspections, and keep your workplace splash zones safer for everyone.

Splash Guard with Cutaway Options

- ML108331 Medium
- ML108333 Small
- ML108335 Short

Splash Guard with Cutaway and Suction-Cup Base Options

- ML108337 Short
- ML108338 Small
- ML108339 Medium

Antimicrobial Splash Guard with Cutaway
ML107393

Transparent acrylic material inhibits microbe surface degradation for durability and longevity.

Available Options

- ML107391 Short
- ML107392 Small
- ML107393 Medium

Splash Guards help meet Joint Commission Regulation EC.02.05.01

Wall-Mount Splash Guard
ML21648

Maximize your space and prevent water hazards with this wall-mounted sink splash guard. The guard is ideal for use with standalone sinks or sinks with a lack of counterspace and also works as a barrier between work stations. 15.875"W x 12"H.

Gooseneck Safety Shield
ML7028

The most flexible, most portable splash shield you can find. The gooseneck arm allows for infinite positioning — it's changeable for each person and each task. 12" x 8.5" shield with 14" gooseneck arm.

Available Options

- ML1027 Magnet Mount
- ML1028 Clamp Mount

SPECIMEN COLLECTION

Accurate, efficient specimen collection plays a vital role in getting answers and making treatment decisions quickly. Our broad spectrum of specimen collection supplies is tailored for the urgent, unpredictable nature of ED workflows. From leak-resistant containers and easy-to-label bags to streamlined transport systems, we offer reliable solutions for collecting, protecting and transporting critical samples. Each product is designed to support fast turnaround times, reduce contamination risk, and ensure patient safety.

SPECIMEN COLLECTION TOTES

Specimen Transport Tote

ML8251, ML8250, and ML17484

Courier totes take a lot of abuse in their travels and this line of heavy-duty, professional courier totes will stand up to the wear and tear. The outer shell is made with a heavy-duty PVC-coated 210D nylon and has dual-slider zippers, security style with leather pulls, adjustable shoulder straps, a document window on the top of the bag, and an identification window on the side of the exterior for an easy way to label each tote. The inner 210D nylon can be used with ice packs or dry ice and cleans easily with a water bleach solution. There is an interior zippered documentation pouch for storing specimen information.

Available Options

ML16819 Small • 8.5"W x 7.75"D x 6"H
ML17484 Small, Tall • 6"W x 9"D x 11"H
ML8250 Intermediate • 14"W x 8.5"D x 7"H
ML8251 Large • 18"W x 9"D x 13"H

7.375"W x 6.625"D x 4.75"H

SPECIMEN COLLECTION

TOTES

Wheeled Specimen Transport
ML1985

Large-capacity, insulated, lockable tote with retractable handle and fixed wheels.

Dual Chamber Specimen Transport Tote with Dry Ice Liners
ML3654

The two-in-one Dry Ice Dual-Chamber Tote is the ultimate tote for specimen transport. Two separate chambers allow same-time transport of specimens requiring different temperatures.

Hardside Cooler
ML3638

Premium insulation creates superior ice retention for all types of specimen transport.

Available Options

ML3638 Small • 14.25"W x 9.5"D x 11"H
ML3639 Medium • 16"W x 10.5"D x 12.5"H

Antimicrobial Specimen Tote
ML100921

Microban protective coating helps reduce the opportunity for bacteria to grow on bags and prevents microbes from growing and colonizing on materials, so bags stay cleaner between cleanings.

SPECIMEN COLLECTION

TOTES

Deluxe Blood Sample Transport System
ML531796

Includes cooler, liner, small foam vial holder, reusable ice pack, and small biohazard containers.

U-tek® Reusable Gel Packs
ML0412

Cold gel packs are useful for storing and handling temperature-sensitive items like blood specimens, serum samples, vaccines, and medicines.

Available Options

ML0412 Small • 7"L x 4"W x 1"H
ML0414 Medium • 8"L x 6"W x 1"H
ML0598 Large • 10"L x 8"W x 1"H

WOUND CARE

Wound care requires solutions that protect healing tissue, minimize discomfort, and streamline clinical workflows. This section features products designed with both patients and caregivers in mind — prioritizing skin integrity, ease of use, and reliable performance. From dressing securement to advanced healing support, each item reflects a commitment to comfort, efficiency, and better outcomes. Whether you're addressing everyday needs or complex cases, you'll find trusted tools to support every step of the healing process.

WOUND CARE TUBULAR BANDAGES

MT Spandage™

MT Spandage™ simplifies securement with a tubular net design that is made without latex and keeps wet or dry dressings and IV lines firmly in place — no tape, no wrapping, and no skin irritation reducing medical adhesive-related skin injuries (MARSI).

Available Options:

Boxed — Stretched Lengths

IMAGING ESSENTIALS

PATIENT TRANSFER

Marketlab Patient Transfer Board

ML5210

Glide patients safely from one bed to another and help prevent back injuries to caregivers. Made of HDPE so they're anti-static, radiolucent, lightweight, and flexible.

Available Options

ML5209 Narrow 72"L x 18"W
ML5210 Standard 72"L x 22"W
ML5211 Pediatric 33"L x 22"W

Storage Rack Patient Transfer Device

ML205102

Thin 0.1875" radiolucent polyethylene board assures smooth, safe patient transfers in conventional X-ray, CT or MRI suites.

Slicker Spray

ML15786

Slicker Spray is a water-based silicone spray used to increase the slickness of table pads and slide boards which will reduce required effort during patient transfer or positioning. Slicker Spray is safe for skin contact, non-flammable, and safe for all plastic and vinyl surfaces. The product will also extend the life of table pads and covers by reducing friction tears.

Peg-Type Apron Rack

ML5086164

Hold up to four aprons with two rubber-tipped pegs per apron designed to keep them from sliding off.

Available Options

ML5086163 Holds 1 Apron • 5"W x 4"H
ML5086164 Holds 4 Aprons • 24"W x 4"H

Folding Apron Rack

ML521300

Prolongs the useful life of expensive lead aprons by preventing tears and cracks due to improper storage. Shoulder-shaped support arms pivot on nylon bearings. Folds flush to wall when not in use. Holds 5 aprons.

Available Options

ML521300 Right Hand
ML521301 Left Hand

Valet Rack for Lead Aprons

ML2748

Sturdy rack easily transports heavy lead aprons on ten closed-loop hangers capable of supporting up to 300lb of aprons, thyroid shields, and more.

ADDITIONAL HANGERS AVAILABLE ONLINE

Wolf Tri-Rack Apron and Glove Holder

ML35111

Triple purpose rack designed to hold an apron and a pair of gloves. Calipers, and other accessories may also be stored on it. White powder coat over steel.

Available Options

ML501992 Tri-Rack Apron/Glove Holder
ML35111 28"W x 8"D x 16"H

Mobile Apron Locker

ML101755-WH

Eliminate apron theft and mismanagement with a digital passcode lock that allows users to set multiple passcodes, securing up to 20 aprons.

ADDITIONAL COLORS AVAILABLE ONLINE

Wrap-Around Back Relief Lead Apron

WABR

The Wrap Around Apron provides radiation protection for both the front and back of the body. The back relief transfers weight from the shoulders to the hips with the aid of a six-inch wide elastic belt with hook-and-loop closures. Shoulder pads included.

Flex Back Apron

FB

Elastic back panels add comfort and support. Hook-and-loop fastening flaps that wrap around the waist adjust for the perfect fit. Shoulder pads included.

Back Relief Lead Apron

BR

The Back relief transfers weight from the shoulders to the hips with the aid of a six-inch wide elastic belt with hook-and-loop closures. An adjustable shoulder strap across the back keeps the apron snug. Shoulder pads included. *Indicate belt size when ordering.

Vest Skirt Combo

VS

The original, patented vest skirt provides extra protection without sacrificing comfort and freedom of movement. The vest features all around protection with an overlap in the front for added protection. Shoulder pads and three panel hook-and-loop closures improve comfort and fit. The skirt wraps around and overlaps in the front for extra protection. Fits securely on the hips with extra wide hook-and-loop fastener and quick release buckle for added support. A large side pocket comes in handy for markers and IDs. The hanging loops keep the skirt free of damaging folds.

Adjust-a-Fit Vest Skirt Combo

AFVS

Additional adjustments offer the most protection and maximum comfort in a vest skirt. The vest's arm hole is adjustable by hook-and-loop closure at the shoulder. With padded shoulders and three hook-and-loop front closures, offers the most secure and comfortable fit for a wide variety of wearers. The skirt wraps around and overlaps in the front for extra protection. Fits securely on the hips with extra wide hook-and-loop fastener and quick release buckle for added support. Comes standard with a large side pocket and hanging loops.

Custom Order Form

IMAGING ESSENTIALS

ULTRASOUND GEL

ClearWave Ultrasound Gel Bottles

ML17903

ClearWave Ultrasound Gel is a superior cost-effective couplant designed to meet the most demanding requirements.

Available Options

ML17000 Medium Viscosity

ML17903 High Viscosity

Clear Image Ultrasound Gel Singles, Sterile

ML17366

Provides a quick and simple solution for ultrasound operators. Each sterile 20-gram packet comes in a peelable overwrap. Gel is dye and perfume free so it reduces the chances of skin irritation. Water-based and water-soluble, so it won't stain clothing and it wipes off easily.

Clear Image Ultrasound Gel Singles, Non-Sterile

ML134400

Single-patient gel packets for diagnostic imaging and therapeutic ultrasound applications.

Available Options

ML134400 High Viscosity • 1oz Packets

ML900929 High Viscosity Refills • 1oz Packets

ML900931 High Viscosity Refills • 0.5oz Packets

ML900936 High Viscosity Dispensing Carton • 0.5oz Packets

ML134401 Lite • Medium Viscosity • 1oz Packets

ML900933-CO Lite • Medium Viscosity Refills • 1oz Packets

ML900937 Lite • Medium Viscosity Dispensing Carton • 1oz Packets

ML900935 High Viscosity Dispensing Carton • 1oz Packets

Aquasonic 100 Ultrasound Gel, Sterile

ML911409

Aquasonic 100 Sterile is based on the same proven formulation as Aquasonic 100. Aqueous, non-staining, hypo-allergenic and acoustically correct for the broad range of frequencies used in medical ultrasound. Single-use foil packet is in an easy-to-open, peel back Tyvek pouch. Individual over-wrapping guarantees that the gel, as well as the inner foil packet, are sterile.

SONO Disinfectant Wipes

ML18623

Designed by ultrasound engineers and sonographers, SONO Ultrasound Wipes are the only disinfectant wipes that use an EPA approved proprietary patented solution that kills 47 pathogens and have been tested to prevent damage to your equipment. Eliminating the need for multiple cleaning products, these innovative Wipes clean, sanitize, disinfect, and deodorize everything they touch.

Protex One Step Disinfectant Spray and Wipes

ML110383

Protex is a one-step cleaner/disinfectant for use on ultrasound transducers, probes and hard, nonporous surfaces. It meets AOAC efficiency standards for hospital disinfectants. Kills more than 30 pathogens including HIV, H1N1, and MRSA.

Tristel™ DUO Intermediate-Level Disinfectant

ML104703

Can switching disinfectants really help you see more patients? Yes, when your reprocessing time is cut by more than half. Tristel DUO uses a CIO foam designed for the disinfection of ultrasound transducers, transducer holders, cables, keyboards, and ultrasound stations. A proven bactericidal, fungicidal, and virucidal, it can also be used on colposcopes, mammography compressor plates, dialysis machines, blood pressure cuffs, and other hard non-porous medical devices and surfaces.

Tristel ULT™

ML138896

Tristel ULT is a high-level disinfectant foam with dry wipes designed to disinfect cleaned, reusable, non-lumened ultrasound probes. It's the safe, compact, and portable solution that gets you closest to the point of care and is ready to use immediately. Trusted for years by healthcare professionals in 35 countries, Tristel ULT is now FDA-approved for use in the United States. Ensure your probes are sterilized and your patients are safer with Tristel ULT.

ANESTHESIA

Anesthesia must be delivered quickly, safely, and with complete confidence, and our products support these needs and meet the urgent demands of critical care. Our solutions are designed to help manage cables, monitor patient temperatures, ensure patient safety, and optimize the entire anesthesia process. These trusted tools help your team respond with precision when every second counts.

ANESTHESIA

PATIENT EYE PROTECTION

SHARN EyeGard® Eye Covers

S2020

Presents a lower risk of cross-contamination than a roll of surgical adhesive tape. Helps reduce the risk of MARS as compared to standard adhesive tape during removal. Nonadhesive tab designed for application and removal while wearing surgical gloves.

Available Options

S2020 Adult
S2020-M Sensitive
S2020-P Pediatric

SHARN Opti-Gard® Patient Eye Protector

BAT-D28310

Protect your patient's eyes against trauma and unintentional contact. Features an exclusive "Extra Cushion" layer for additional skin protection. Self-adhering for fast and accurate placement.

Available Options

BAT-D28310 Adult, Extra White Cushion, Sterile
BAT-D28400 Adult Laser, Non-Sterile
BAT-D28200 Pediatric, Non-Sterile

SHARN
SharnSelect Easy Bite-Block™
ML106722

Made from a dense cylindrical roll wrapped in silky yarn, it won't compress more than 7mm under bite pressure and exerts pressure on the back molars to minimize damage to teeth and tongues. Individually wrapped to help prevent cross-contamination.

Available Options
ML106721 Medium
ML106722 Large

Combo Folding LED Laryngoscope
ML17892

Bright LED light source with all-in-one, convenient design that saves time. Sizes are color-coded for quick identification. Single use means no reprocessing costs. Pre-assembled.

Macintosh Options
ML17890 Size 2
ML17892 Size 3
ML17893 Size 3.5
ML17895 Size 4

Miller Options Also Available

J-Wand with Non-Flexible Tip
ML95111

This disposable Intubating stylet has an oxygen port to allow direct oxygen delivery during periods of apnea. Supports direct and video laryngoscopy by providing semirigid support inside the endotracheal tube.

Available Options
ML95111 Sterile
ML106185 Non-Sterile

Curved Eschmann-Style Bougie TTI
TTI-C10

These disposable “bougies” are used to guide the endotracheal tube during difficult intubations. The tubes slide over the introducer which helps to guide the way, especially helpful for “blind” intubations.

Available Options
TTI-C10 Adult • 15fr x 70cm
TTI-P10 Pediatric • 10fr x 70cm

Straight and Malleable Options Also Available

Capnoxygen® Sampling Mask
ML16177

The Capnoxygen Mask is a consistent means to monitor breathing of a non-intubated patient, allowing sampling of exhaled carbon dioxide from both the mouth and nose while at the same time administering oxygen. It is made from Clear Medical Grade Resin. The mask is soft and allows form-fitting comfort for the face. The tubing is non-kinkable (star lumen). The design makes it simple and fast to hook up to oxygen.

Female Luer Options
C02-04 Pediatric
C02-03 Ophthalmic Adult
C02-01 Adult

Male Luer Options
ML16178 Pediatric
ML16176 Adult
ML16177 Ophthalmic Adult

SHARN
SharnSelect Sof-Strap Disposable Mask Harness
MHD-SS1005

Made with a soft fabric that’s breathable and comfortable. The wide elastic straps are gentle even on bearded patients and patients with delicate skin. Engineered with controlled elasticity for a better fit. Easy to handle-even with wet gloved hands. Universal size.

Trinity Premium Anesthesia Mask
ML20667

Ultra-thin, soft, premium cushion with contoured design. The ergonomic shape fits all facial configurations with an effective seal. The comfort ridge lessens hand pressure for clinician and prevents discomfort. Single-patient-use.

Available Options
ML20663 Size 1 • Neonate
ML20664 Size 2 • Infant
ML20665 Size 3 • Toddler
ML20666 Size 4 • Small Adult
ML20667 Size 5 • Adult
ML20668 Size 6 • Large Adult

8' Heavy-Duty CableCaptain, Royal Blue

Heavy-Duty CableCaptain is a must-have cord-management solution in high-traffic areas, where equipment is frequently moved, or in areas that possess greater fire risk, such as the OR. Constructed of an extremely durable material, CableCaptain Heavy Duty has enhanced tear and abrasion resistance.

Available Options

CJ-RB6FT 6'L
CJ-RB8FT 8'L
CJ-RB12FT 12'L

Also Available in Black and Gray

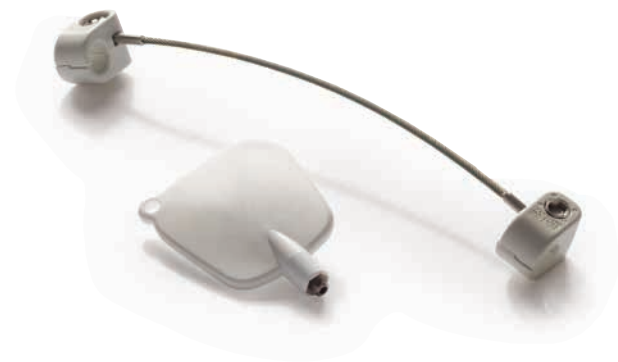

Heavy-Duty Cable Tether with Security Key

ML18174

Cable tethers eliminate misplaced lead wires and cables by securing components together. Only authorized staff carrying the provided key can loosen the unique security screw and separate cables.

Available Options

ML18174 6"L
ML18176 6"L with Key
ML18175 12"L
ML18177 12"L with Key

6\"/>

ML6093

Cable tethers eliminate misplaced lead wires and cables by securing components together. Only authorized staff carrying the provided key can loosen the unique security screw and separate cables.

More Options Available

Crystalline® II Temperature Trend Indicators

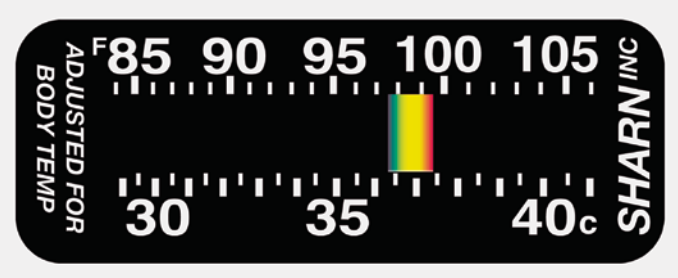

ML5101C-II

Easy to use and non-invasive, these temperature indicators are a reliable alternative to electronic probes. Leave them on during your patient's stay in PACU for easy monitoring. These forehead indicators are ideal for use with laryngeal mask airways, and mac, or regional anesthesia when you don't have to intubate.

Dispenser Box Options

ML5101H-II 50/pk
ML5101C-II 100/pk
ML5101F-II 125/pk

Also Available in Bulk and Individually Wrapped

Truer Disposable Electronic Skin Probe

SSP400

This trusted skin temperature probe has a reflective back to insulate the sensor from heat lamps or OR lights. The hypoallergenic adhesive allows for easy placement and removal.

Esophageal, Tympanic, and General Purpose Probes Also Available
