THE MARKETLAB STORY

At Marketlab, we've been pioneering healthcare solutions for over 30 years. From our very first invention, the Tube Jockey, to a comprehensive range of healthcare solutions under our expanding brand family, we focus on making the day-to-day lives of healthcare professionals easier and more fulfilling.

Today, Marketlab is a trusted partner for most U.S. health systems, offering products that cater to the real-world demands of healthcare environments.

MARKETLAB IS MORE THAN JUST A SUPPLIER, WE ARE A DEDICATED PARTNER IN HEALTHCARE EXCELLENCE.

HOW WE'VE GROWN

Since 1994, Marketlab has grown from a pioneering startup to a leader in specialized healthcare products. Our journey has been marked by strategic growth and thoughtful acquisitions. With nine brands in the Marketlab portfolio, we are able to provide comprehensive solutions across all aspects of healthcare delivery, from anesthesia to medical bags and everything in between.

Utilizing our broad product portfolio, focusing on low-to-mid volume products, healthcare facilities can reduce the time and effort spent on procurement, and focus on what truly matters — patient care.

Curated Solutions for Everyday Anesthesia Workflows

This book highlights featured products from our curated anesthesia collection, designed to support the day-to-day needs of perioperative teams. From airway support and eye protection to temperature monitoring, carts, and procedural accessories, Marketlab offers practical solutions that help improve organization, efficiency, and patient care. To explore additional options, scan the QR codes throughout or connect with your account manager for personalized recommendations.

Solutions Designed for the OR and Beyond

Anesthesia teams work in fast-moving environments where preparation, organization, and reliability matter. Whether you're preparing medications, protecting patients during procedures, or managing supplies across care areas, Marketlab offers thoughtfully designed products that help support smoother workflows and greater efficiency throughout the perioperative environment.

Built to Support Safer, Smoother Care

In anesthesia, small details can make a big impact. That's why we focus on solutions that help improve accessibility, reduce clutter, support consistency, and enhance patient protection. From specialty carts and organizers to procedural accessories designed with clinician input, our products are built to support teams so they can stay focused on delivering quality patient care.

EYE PROTECTION

Protecting a patient's eyes during procedures is a small step that can make a meaningful difference in patient safety and comfort. Marketlab offers practical eye protection solutions designed to help reduce the risk of corneal abrasions, contamination, and accidental injury throughout the perioperative environment.

From adhesive eye coverings and rigid protective shields to face protection solutions designed for use during draped procedures, these products help providers maintain visibility, accessibility, and protection without adding unnecessary complexity to the workflow.

EYE PROTECTION

EyeGard®

S2020

A gentle and clean alternative to tape, EyeGard helps reduce the risk of MARS as compared to standard adhesive tape during removal. 50 pairs per box.

Available Options

S2020 Adult
S2020-M Sensitive
S2020-P Pediatric

Patient Eye Protector

BAT1-100

This rigid, clear plastic protective cover is supplied with a non-allergenic self-adhesive foam cushion for fast and accurate application.

Available Options

BAT1-25 Adult, 25/cs
BAT1-100 Adult, 100/cs
BAT2-25 Adult, Double Foam, 25/cs

Saving Eyes Breakaway Face Protection Shield

44351

Designed for use with ETTs or LMAs, the shield has a unique break-away feature for rapid removal without the need to disconnect the breathing circuit.

TEMPERATURE MANAGEMENT

Maintaining patient temperature begins with accurate monitoring. Marketlab offers practical temperature monitoring solutions designed to help clinicians quickly assess and track patient temperature throughout the perioperative experience.

From disposable temperature indicators and skin thermistors to easy-to-use monitoring accessories, our products are designed to support efficient workflows while providing dependable temperature assessment. Simple, reliable, and easy to incorporate into existing protocols, these solutions help anesthesia teams monitor patients with confidence and support optimal patient care.

AIRWAY MANAGEMENT

INTRODUCERS

Tracheal Tube Introducer, 70cm
TTI-C10

These disposable Eschmann-style and Malleable “bougies” are used to guide the endotracheal tube during difficult intubations. The tubes slide over the introducer which helps to guide the way, especially helpful for “blind” intubations.

- Available Options**
- TTI-C10 Eschmann-Style, Curved • Adult • 15fr
 - TTI-P10 Eschmann-Style, Curved • Pediatric • 10fr
 - TTI-S10 Eschmann-Style, Straight • 15fr
 - TTI-MA-10 Malleable Stylet, Adult • 15fr

Introducer/Bougie Storage Dispenser
16018

Minimal profile design allows this storage solution to go wherever your "bougie" supply goes. Easily mounts to walls and carts for added convenience.

- Available Options**
- 16018 Single, Holds 10
 - 16954 Double, Holds 20

Non-Sterile Bougie-Introducer
108243

This latex-free Bougie/Introducer can be used as an ET tube exchanger or during indirect video laryngoscope intubations.

S.T.I.G. Steerable Tip Intubation Guide
42180

Flexible, easily steerable tip makes it easy to manage difficult airways. Innovative slider is used between the thumb and forefinger to move the tip anteriorly and posteriorly.

AIRWAY MANAGEMENT

STYLETTE

Sunslip Stylette
ST-90203-14

Malleable aluminum stylet sealed in a PVC sheath. Latex free, sterile, single use.

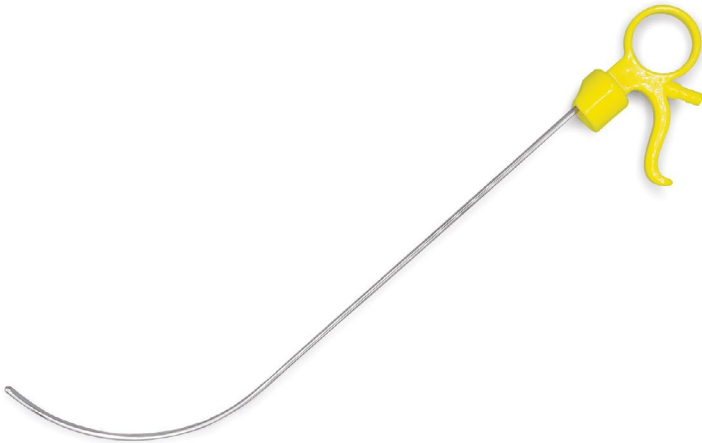

- Available Options**
- ST-90203-06 Infant • 10"/6fr
 - ST-90203-10 Pediatric • 11.5"/10fr
 - ST-90203-14 Adult • 12.5"/14fr

J-Wand with Non-Flexible Tip
95111

Disposable intubating stylet with oxygen port. Allows direct oxygen delivery during periods of apnea through the innovative handle port design.

- Available Options**
- 95111 Sterile
 - 106185 Non-Sterile

Bite Block, Triple Security Ring, Adult, 6.5mm-9.5mm
34289

Designed to protect endotracheal tubes when sedated patients bite down, this unique Bite Block utilizes security rings to prevent slipping.

SharnSelect Easy Bite-Block
106722

Made from a dense cylindrical roll wrapped in silky yarn, the Bite-Block won't compress more than 7mm under bite pressure and exerts pressure on the back molars to minimize damage to teeth and tongues. Individually wrapped to help prevent cross-contamination.

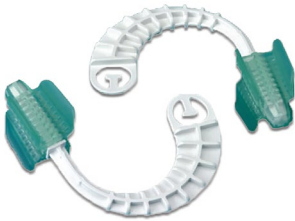

Available Options
106721 Medium
106722 Large

Soft BiteBlock™, Disposable
23488

The soft block is gentle on patients' teeth, yet strong enough to protect the tube.

Available Options
23488 Large, Bulk
35473 Small, Individually Wrapped

BiteGard Bite Block
BBG-1140

Easy to reposition and can be used on the left or right side.

Adult Bite Block
BBG-B3-100

Large-opening bite block includes adjustable retention strap for a more comfortable fit.

Pre-Formed Endotracheal Tubes
ET-440040

Designed to reduce kinking of the tube by incorporating a preformed curvature. Compare to Rae®.

Available Options
Cuffed, Nasal

SharnSelect Sof-Strap Disposable Mask Harness
MHD-SS1005

The Sof-Strap Mask Harness is made entirely without natural rubber latex and holds mask firmly, but comfortably in place on a patient's face. Designed for single use to minimize cross-contamination risk.

SharnSelect Adult Mask Harness
34381

Lightweight, ventilated harness evenly distributes pressure for patient comfort while offering a secure, adjustable fit.

Available Options
34383 Child
34381 Adult

Reusable Mask Harness
MHR-A

The mask harness is constructed of anti-static materials and molded for comfort.

Available Options
MHR-C Child
MHR-A Adult

Elevated Airway Positioner System
108198

The struggle to properly position patients for airway management is over. With the Elevated Airway Positioner System, even bariatric patients or those who suffer from Obstructive Sleep Apnea can achieve the right alignment for intubation before, during, or after surgical procedures. Stop fumbling with impromptu solutions like rolled-up towels and trust this stable platform for the head and neck. Sharn Anesthesia gives you the tools you need to get the job done the right way. We have been outfitting providers and patients with quality products for years that improve the healthcare experience.

- Available Options**
108196 2-Piece Base Set
108198 3-Piece Complete Set
108197 Headrests
108199 Base Addition

Breathing Bag
1000376

This breathing bag supports ventilation and oxygen delivery while providing continuous visual and tactile feedback during use. Its responsive movement allows anesthesia teams to assess respiratory rate and depth in real time, supporting patient monitoring throughout procedures. Available in multiple sizes, this versatile breathing bag supports controlled ventilation across a range of anesthesia settings and patient needs.

- Available Options**
1000375 3L
1000376 2L
1000377 1L
1000378 0.5L

LEAFix Airway Fixator
139036

Developed by actual operating room professionals, LEAFix simplifies the airway securement process without the use of tape and reduces the risk of errors and airway dislodgement.

Anesthesia Intraoral Module
1000315

Brings oxygenation, capnography, bite block functionality, and airway access together into a single platform for non-operating room anesthesia.

McMurray Enhanced Airway
106537

Enhances ventilation and oxygenation before, during, and after intubation while helping reduce the need for chin lift and jaw thrust. Its integrated bite block helps protect teeth while maintaining a clear upper airway.

SAFETY

In busy perioperative environments, organization and accessibility can make a meaningful difference in workflow efficiency, infection prevention, and day-to-day consistency to help improve overall safety. Marketlab offers practical organization solutions designed to help keep essential supplies visible, protected, and within easy reach throughout the anesthesia workspace.

From PPE dispensing solutions and storage accessories to cable and cord organization products that help reduce tripping hazards around critical equipment, our solutions are designed to support cleaner, more efficient clinical environments.

DIAGNOSTICS

Whether monitoring end-tidal CO₂, supporting non-intubated patients, or assessing neuromuscular blockade, anesthesia providers need dependable products that are easy to use and designed for real-world clinical demands. Our solutions are selected to help improve patient comfort, simplify setup, and support consistent performance across a variety of procedural settings.

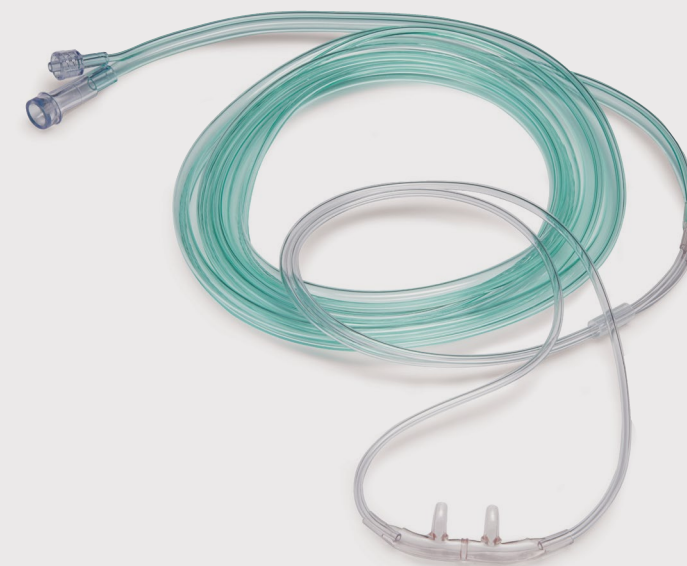

DIAGNOSTICS CAPNOGRAPHY

SharnSelect Adult Cannula

34284

Available Options

34283 10' O₂, 10' CO₂, Male Luer
34284 14' O₂, 14' CO₂, Male Luer
34282 7' O₂, 7' CO₂, Female Luer
34281 7' O₂, 7' CO₂, Male Luer

ETCO₂ Adult Cannula Male/Female Luer Fits All O₂

17006

Available Options

17006 7' Universal Gas Sampling Line • 10' O₂ Line
17273 14' Universal Gas Sampling Line • 10' O₂ Line

Sentri™ EcoLite™ for Microstream®, 7' EtCO₂ Sampling Line with Filter

90218

Designed to provide supplementary O₂ while facilitating EtCO₂ monitoring, this sampling mask is made from polypropylene and TPE, making it lighter and more ecofriendly than traditional PVC alternatives.

10' Gas Sampling Lines

GSL-90151-H

Available Options:

GSL-90100-H PE/PVC Male/Male
GSL-90150-H PVC Male/Male
GSL-90151-H PVC Male/Female
GSL-2042 PVC Male/Male, 0.05"ID

CapnoVue® CO2 Mask with 7' O2 Male Line
34680

Designed to make capnography during transoral sedation procedures easy, reliable, and consistent, CapnoVue Masks have large apertures that accommodate most instruments and bite blocks, and limit mask interference within the procedure.

Available Options:
34680 Pediatric with Scope Access
34682 Adult with Scope Access

Capnomask Oxygen Mask with CO2 Sampling and Connector
41811

Capnomask provides simultaneous O2 delivery and EtCO2 sampling in one comfortable, easy-to-use solution. Soft transparent PVC, adjustable straps, and preattached monitoring lines help support patient comfort and consistent EtCO2 tracing.

Available Options
41810 Pediatric
41811 Adult
41812 Ophthalmic

Capnoxygen® Mask with 7' O2 Tubing & Sampling Line
C02-01

A consistent means to monitor breathing of a non-intubated patient, allowing sampling of exhaled carbon dioxide from both the mouth and nose while at the same time administering oxygen. Made from Clear Medical Grade Resin, the mask is soft and allows form-fitting comfort for the face. The tubing is non-kinkable (star lumen).

Available Options
C02-01 Adult, Female Luer
C02-03 Ophthalmic Adult, Female Luer
C02-04 Pediatric, Female Luer
16176 Adult, Male Luer
16177 Ophthalmic Adult, Male Luer
16178 Pediatric, Male Luer

SunStim Pro Nerve Stimulator
89995

Features an illuminated digital display, intuitive front-facing controls, and fully adjustable stimulation levels from 0–70mA. Its compact ergonomic design and removable silicone wrap help improve grip, comfort, and device protection during use.

Nerve Simulator
NS-1053-62

SunStim Peripheral Nerve Stimulators allow manual detection of small amounts of residual neuromuscular blockade, making it easier to "feel" fade in muscle responses.

Available Options:
16309 SunStim
NS-1053-62 SunStim Plus

Replacement Parts for SunStim Nerve Stimulators
NS-1051-79

Available Options:
NS-8-1051-78 Lead-Set • Snap & Shield • 6'
NS-1051-79 Lead-Set • Alligator Clips • 6'
16516 Stim MiniBall Electrode
